**NEW SINGLE "HEAD TO TOE" - A KRAUTROCK
BEHEMOTH OF A TRACK...**

...that has truly all the makings of an Electronic Classic and accompanied by yet another inspired Music Video directed by the Shmoo brothers.

MUSIC...

Opening with an infectious Analog bass-line, with a nod to Kraftwerk's "Radio Activity", this begins a journey into a song full with addictive hooks, memorable synth solos, and a killer melody that shows the impressive vocal range of Shmoo's lead vocalist. This catchy track, which has a hint of Muse's "Madness", ignites nostalgia and innuendo with an overall fantastical 80s sound, all encompassed in an impressive production.

VIDEO...

The video to "Head To Toe" is very stylised and beautifully shot, with subtle links to previous videos "Ghost" and "Plastic Surgery". In a year when we see a return of Blade Runner, have Shmoo now become robots themselves? With amazing sets and locations used, that wouldn't seem out of place in a Stanley Kubrick film, this music video with a twist is cleverly executed, and complements the track brilliantly.
